

## ***The Quality Policy of TAUGÉP Ltd. Co.***

During the completion of our orders in rubber industrial machine manufacturing and in the production of high-pressure flexible hose couplings, the management of our organisation considers the satisfaction of the interested parties, the appropriate working environment, the trust of our suppliers and the representation of interests of the stakeholders in our economic company primary aspects.

**Our quality policy is a part of our business policy, and our quality management principles are in conformity with our business principles.**

We are aware of that quality policy is worth as much as is realised of it; therefore, we wish to improve the efficient operation of our organisation and of our quality management system by achieving quality targets built upon our quality policy, with a voluntary law-abiding attitude conforming to European norms, creating trust in our region and in society.

During operations we monitor the risks affecting the environment of the company and their potential management.

All of our staff must be familiar with the quality policy, and everyone is responsible for the quality of his or her own work.

We manage the performance of the requirements of work safety and environmental protection determined in legal regulations, the improvement of working environment and infrastructure with special emphasis.

**The management ensures the compliance of all of our products and processes with the interested parties requirements, and our quality management system is continuously improved** according to the requirements of EN ISO 9001:2015, the 9<sup>th</sup> edition of API Specification Q1 and the 20<sup>th</sup> edition of API 6A standards.
